

THE SITUATION

Similar to many other companies, CEDARS had accumulated more than 30 laser and ink-jet printers over the past few years. Managing and controlling the use and costs associated with this equipment was impossible due to its location. The equipment was spread out over six different locations and operated by a multitude of departments and employees. The situation had grown out of control and management recognized the need to make a change due to the inefficiency and over whelming costs.

THE SOLUTION

- SolutionOne first performed an asset analysis in order to identify, locate and track print usage on these devices. At that point, both CEDARS and SolutionOne became aware of how bad the situation had become.
- Throughout this investigative process, SolutionOne identified numerous inefficiencies in the current workflow and procedures and made recommendations to simplify things for all employees.
- The employees recognized huge improvements in productivity, reliability, image quality and capability.
- Management had not only gained control of the printing costs, they also added other desirable features like scanning and high-speed network printing.
- The financial intelligence gathered and coupled with the re-deployment of current technology and budgets resulted in a savings of over \$50,000 over the next few years!
- SolutionOne sends CEDARS one invoice per month which includes everything but paper and staples. No more expensive toner or drum cartridges to purchase, no more "disposable" printers to invest in, and significant improvements in technology made this a worthwhile experience for CEDARS.

ABOUT CEDARS

CEDARS is a private, non-profit, child caring organization providing services focused on helping kids in crisis and fostering strong families. The mission of CEDARS is to help children who have been abused, neglected or homeless achieve safety, stability and enduring family relationships. CEDARS fulfills this mission by providing critical emergency services, short-term residential care, as well as, preventative and support programs for children and families in need.
